

# Sanghoon Lee

E3-1 #4418, 291, Daehak-ro, Yuseong-gu, Daejeon, 34141 Republic of Korea  
sanghlee [at] casys.kaist.ac.kr • <https://canplane.com/>

## RESEARCH INTERESTS

---

- Operating systems
- Compiler optimization
- Domain-specific architecture
- AI accelerator designs

## EDUCATION

---

### Computer Architecture and Systems Laboratory (CASys), KAIST

M.S. in School of Computing

Mar. 2022 – Present

- Advisor: **Prof. Jongse Park**

### Ajou University

B.S. in Electrical and Computer Engineering

Mar. 2015 – Feb. 2022

- Second major in Software and Computer Engineering
- Cumulative GPA 4.17/4.5, Major GPA 4.33/4.5

## RESEARCH EXPERIENCES

---

### Mobile Computing Laboratory, Ajou University

Undergraduate Research Intern

Dec. 2018 – Oct. 2019

- Proposed an authoring tool to get rid of ambiguities in SRS written in natural language.

## PUBLICATIONS

---

1. 장정규, 이상훈, 양희석, “SRS 적합성 검증을 위한 구조화된 작성 방법 및 작성 보조 도구”, 대한임베디드공학회 논문지, (2019)

## HONORS & AWARDS

---

Dean's List, Ajou University

2019 – 2020

- Spring 2019, Fall 2019, Spring 2020, Fall 2020

Ajou Global Leader Scholarship, Ajou University

Mar. 2015 – Feb. 2022

- Given for entering the university with high SAT score.
- Provided full sponsorship for undergraduate studies.

## **COURSEWORK**

---

### **Mathematics**

Calculus, Engineering mathematics, Discrete mathematics, Probability/statistics

### **Computer Science & Engineering**

Digital system designs, Embedded system designs, Automata and formal languages, Artificial intelligence and machine learning, Computer vision, Computer structures, Computer networks, Algorithm design paradigms, Operating systems, Data structures, Object-oriented programming, Software engineering

### **Electrical/Electronic Engineering**

Automatic control systems, Signal and systems, Semiconductor engineering, Electronic circuits, Electromagnetism, Modern Physics

## **TECHNICAL SKILLS**

---

**Programming Languages:** C/C++, Java, Python, JavaScript

**HW/Embedded System Designs:** Verilog/VHDL, PSpice, AVR programming

## **LANGUAGE SKILLS**

---

**Korean:** Native

**English:** TOEIC 830
